

### Funding

General Practice in Scotland receives only 6.5% of the entire NHS Scotland Budget

### GP Numbers

The number of GPs in Scotland is falling with a loss of around 200 in the last 10 years

### Patient Numbers

Over the last 12 years, more than 450,000 new patients have registered with GP Practices in Scotland

### Complex Care

There are more elderly in our population. Therefore more patients living with long term, complex illness to care for

### GP Premises

Lack of investment in GP premises; needed to deliver the right care closer to your home
